gg/dV2pFEGCheck that out for new updates, announcements, concept art, suggestion and ideas and much more!Thank you for your patience with this.

I also have a small team rather than working on my own which will make the release faster.. This is in no way a AAA game and is just a passion project by a few students -Nikk.. Update 2:Hello!Here's some news on the first update The game is now based on the SCP foundation to be clear.. The game is inspired by the SCP Foundation The player finds themselves alone in a facility full of enemies that have occupied the area, aswell as horribly mutated animals that they will have to overcome in order to survive.. And yes, there WILL be a release As for the game's core gameplay there wont be much of a difference. [Intro Font Free Download Mac](#)

Here, you won't be able to just run away from every enemy, or just shoot them as some of them might get attracted to sounds or be immune to certain weapons or traps for example.. There will still be the sheer zombie killing fun that i tried to make I'll be posting updates mostly on my discord which you can find here:<https://discord..> Heres the link https://m.youtube.com/watch?v=rT7UyEx3p_UIt shows off some of the core features so far.. The game features full 3D models, in a creepy style The gameplay is quick and action-packed, combined with weaponry and no shortage of enemies to kill.. gg/knsr7XgThank you for reading!-Nikk Huge Changes:Hello!I've been very unpleased with the game and have ultimately decided to change the graphics and story. ae05505a44 [Unduh Heroes Arena Best August 2016 Видео](#)
